

National Adoption Month ★ ★ ★ ★ ★ November 2003

There's No Place Like
Your Home.

USKids need a family of our own.

Approximately 126,000 children in the United States are in need of adoptive families. More than half of them are children of color, older children and siblings who want to stay together. It would take less than 1% of the US population to give every child a home. Be the one to make a difference.

Produced by the Collaboration to AdoptUSKids and the National Resource Center for Special Needs Adoption, services of the Children's Bureau.
